Age: 26

Education:

M.Tech in Artificial Intelligence — IIT Delhi (2020–2022)

B.Tech in Computer Science — NIT Trichy (2016–2020)

Projects:

- Transformer Optimization Research: Improved transformer models for NLP tasks using PyTorch.
- LLM Fine-tuning Tool: Developed a pipeline for fine-tuning GPT-based models on domain data.

Skills:

Python, PyTorch, TensorFlow, Hugging Face, NLP, LLMs, Deep Learning

Certifications:

- Coursera Deep Learning Specialization (Andrew Ng)
- TensorFlow Developer Certificate

Achievements:

- Published paper on parameter-efficient fine-tuning in IEEE ICMLA 2022.
